

RE: DISCONTINUATION OF SOUTHWEST GAS NEVADA COMMERCIAL AND RESIDENTIAL REBATE PROGRAMS

Dear Industry Partner:

Thank you for being a valued trade ally, for promoting the efficient use of natural gas, and for helping to educate customers on the availability of Southwest Gas rebates. Since 2009, our mutual customers have enjoyed rebates from Southwest Gas on qualifying purchases. Effective **December 31, 2016**, Southwest Gas' commercial and residential rebate programs will be **discontinued in both northern and southern Nevada**. We request that you please discard any residential and commercial rebate program brochures or applications you may have on hand. The Company will continue to offer rebates under its Nevada Solar Water Heating program.

With the current low cost of natural gas, the Public Utilities Commission of Nevada determined that Southwest Gas' rebate programs for natural gas end-use products are not cost-effective at this time. We will continue to make a case to reinstate the Nevada rebate programs, if they can be shown to be cost-effective. The cancellation in Nevada does not impact rebates in Southwest Gas' Arizona or California service territories where rebates will continue as-is.

For more information on Southwest Gas Nevada Solar rebates, please visit our website at swgas.com/solar. If you are interested in receiving additional information or have any questions regarding the discontinuation of the Nevada Southwest Gas 2016 rebate programs, please contact CustomerEngagement@swgas.com or call **800-654-2765**.

Did you know? We help our customers find licensed contractors to replace, repair or upgrade their home's natural gas equipment. If you would like to participate in our Contractor Referral Program, call one of our Energy Specialists at **800-654-2765**.

Thank you again for your continued support.

Sincerely,
Customer Engagement
