

Construction Alert:

Installation of Natural Gas Pipeline in Northwest Mesquite

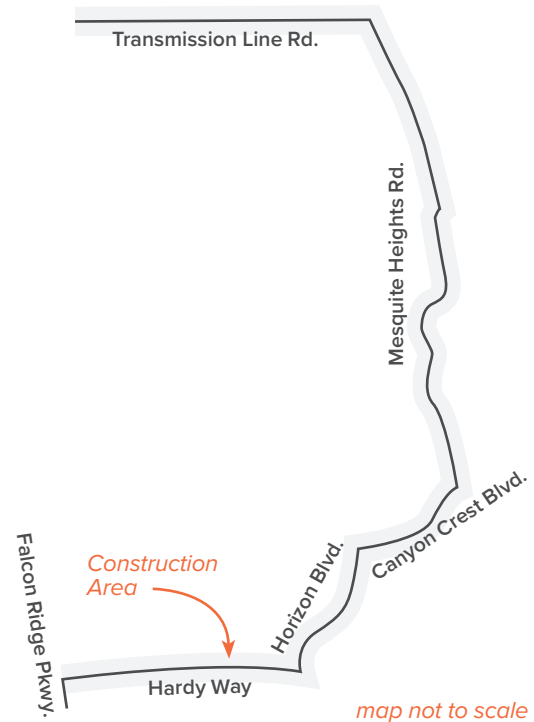

A contractor for Southwest Gas has begun work in **northwest Mesquite** to install a distribution pipeline. This pipeline is being used to transmit natural gas to the Mesquite community – specifically to businesses interested in converting to natural gas and new residential developments.

The work is estimated to be completed by the end of the year and will take place on the following streets:

- **Mesquite Heights Rd.**
- **Canyon Crest Blvd.**
- **Horizon Blvd.**
- **Hardy Way**

You may be affected by the following:

- Work will include videotaping the area, marking utility lines, excavating, installing natural gas pipeline, and asphalt and concrete repair
- Work will take place primarily during Monday through Saturday, 6am - 5pm
- Canyon Crest Blvd. and Horizon Blvd. will be closed while the gas line is being installed on these streets. All other roads will remain open for travel with restrictions in place near the work zone. **Please note there will be a delay when traveling to the Mesquite Landfill on Mesquite Heights Road.** Plan ahead and allow extra travel time.
- Access to businesses, schools and residences will be maintained.

Southwest Gas is committed to providing the Mesquite community with safe and reliable natural gas. For additional info, contact our **project hotline at 702-826-2413.**

Thank you for your patience during this work.
