**\$749**  
**rebate**  
per vat

## CONVEYOR OVENS

**\$750 rebate**  
per unit

### Earn Lifetime Savings with High-Efficiency Equipment!

Major cooking appliances account for almost 35% of the average restaurant's energy expenditures.<sup>2</sup> Efficient equipment can decrease your energy use by as much as 75%.<sup>3</sup>

High-efficiency equipment uses less natural gas and water, so you pay less on your utility bills.

Qualified High Efficiency Product	Estimated Lifetime Savings <sup>1</sup>	Estimated % Savings Over Standard Efficiency
Gas Fryer	\$ 5,590	33%
Gas Convection Oven	\$ 2,550	24%
Gas Combination Oven	\$ 11,870	52%
Gas Conveyor Oven	\$ 9,020	25%
Gas Griddle	\$ 1,290	30%

1. Lifetime savings costs calculations are based on 365 days/year and 12 hours of usage per day (with exception with pre-rinse spray valves that are used 1 hour a day), a gas rate of \$0.85/therm, a combined water/sewer rate of \$7/CCF, and efficiency values from the Foodservice Technology Center and Investor Owned Utility work papers. Percent savings represent the ratio of the total lifetime cost of a standard-efficiency unit to that of a high-efficiency unit of equivalent size and capacity. Actual savings may vary. Calculations dated on 10/13/2016. Actual savings may vary.  
2. Energy consumption for commercial kitchens based on Energy Star study: [www.energystar.gov/ia/business/small\\_business/restaurants\\_guide.pdf](http://www.energystar.gov/ia/business/small_business/restaurants_guide.pdf).  
3. Energy consumption savings are based on a comparison of annual gas consumption for high-efficiency and standard-efficiency units of equivalent size and capacity.

# Instant Rebates! Point-of-Sale Foodservice Rebate Program

## PROGRAM OVERVIEW

The Instant Rebates! Point-of-Sale Foodservice Program is now available to customers within Southwest Gas' territory in Southern California. The Program offers Instant Rebates for natural gas fryers and convection ovens.

## QUALIFYING EQUIPMENT

Many makes and models of natural gas foodservice equipment qualify for rebates up to \$749 per unit. Eligible equipment must be installed at an active, valid, non-residential natural gas Southwest Gas service location in Southern California. **For a full list of eligible equipment, select the corresponding equipment lists at:** [www.caenergywise.com/rebates](http://www.caenergywise.com/rebates).
