per unit

### Earn Lifetime Savings with High-Efficiency Equipment!

Major cooking appliances account for almost 35% of the average restaurant's energy expenditures.<sup>2</sup> Efficient equipment can decrease your energy use by as much as 75%.<sup>3</sup>

High-efficiency equipment uses less natural gas and water, so you pay less on your utility bills.

Qualified High Efficiency Product	Estimated Lifetime Savings <sup>1</sup>	Estimated % Savings Over Standard Efficiency
Gas Fryer	\$ 3,750	31%
Gas Convection Oven	\$ 2,910	33%
Gas Combination Oven	\$ 9,180	80%
Gas Conveyor Oven	\$ 7,760	25%
Pre-rinse Spray Valve	\$ 1,440	44%

1. Lifetime cost savings calculations are based on 365 days/year and 12 hours of usage per day (with exception with pre-rinse spray valves that are used 1 hour a day), a gas rate of \$0.73/Therm and savings values from the Nevada Southwest Gas workpapers. Percent savings represent the ratio of the total lifetime cost of a standard-efficiency unit to that of a high-efficiency unit of equivalent size and capacity. Calculations last updated on 11/6/2020. Actual savings may vary.  
 2. Energy consumption for commercial kitchens based on Energy Star study: [www.energystar.gov/ia/business/small\\_business/restaurants\\_guide.pdf](http://www.energystar.gov/ia/business/small_business/restaurants_guide.pdf).  
 3. Energy consumption savings are based on a comparison of annual gas consumption for high-efficiency and standard-efficiency units of equivalent size and capacity.

# Instant Rebates! Point-of-Sale Foodservice Rebate Program

## PROGRAM OVERVIEW

The Instant Rebates! Point-of-Sale Foodservice Program is now available to customers within Southwest Gas® territory in Nevada. The program offers Instant Rebates for natural gas fryers, ovens, and pre-rinse spray valves.

## QUALIFYING EQUIPMENT

Many makes and models of natural gas foodservice equipment qualify for rebates up to \$1,000 per unit. Eligible equipment must be installed at an active, valid, non-residential natural gas Southwest Gas service location in Nevada. For a full list of eligible equipment, visit [www.energystar.gov/productfinder](http://www.energystar.gov/productfinder) or view the SoCalGas® qualified product list on [www.caenergywise.com/rebates](http://www.caenergywise.com/rebates).
