BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking to Evaluate the Mobilehome Park Pilot Program and to Adopt Programmatic Modifications.

Rulemaking 18-04-018 (Filed April 26, 2018)

**SOUTHWEST GAS CORPORATION'S (U 905 G)
MOBILEHOME PARK UTILITY CONVERSION PROGRAM
ANNUAL STATUS REPORT**

In accordance with Ordering Paragraph (OP) 10 in California Public Utilities
Commission Decision 20-04-004 (Decision), Southwest Gas Corporation (Southwest Gas)
herewith submits its Mobilehome Park Utility Conversion Program Annual Status Report
(Report) utilizing the revised annual report template contained in the updated Safety and
Enforcement Division/Energy Division Staff Proposal (January 2020 Revision) and included
as Appendix B to the Decision. Per OP 10, Southwest Gas will make the Report available
on its website located at <https://www.swegas.com/en/california-rates-and-regulation>.

Dated this 2nd day of February 2026 at Las Vegas, Nevada.

Respectfully submitted,
SOUTHWEST GAS CORPORATION

Stephanie J. Smith
Associate General Counsel

Southwest Gas Corporation

(U 905 G)

Mobilehome Park Utility Conversion Program

Tenth Annual Status Report

In compliance with:
Decisions 14-03-021 and 20-04-004

Reporting Period:
January 1, 2025 through December 31, 2025

February 2, 2026

I. EXECUTIVE SUMMARY

In accordance with Decision (D.) 14-03-021 and D.20-04-004 of the California Public Utilities Commission (Commission) and under the direction of the Commission's Safety and Enforcement Division (SED) and Energy Division Staff¹, Southwest Gas Corporation (Southwest Gas or Company) submits its tenth Annual Status Report (Annual Report) on the Mobilehome Park (MHP) Utility Conversion Program² (MHP Program).

Company Overview

Southwest Gas has two separate and distinct service territories within northern and southern California. Areas served in northern California include North Lake Tahoe, South Lake Tahoe, and Truckee. In southern California, Southwest Gas serves Big Bear, Needles, Barstow, Victorville, and other surrounding cities in the high desert area. Southwest Gas serves 38 master-metered submetered MHPs in its southern California service territory and 11 MHPs in its northern California service territory totaling approximately 3,200 MHP spaces.

II. MHP PROGRAM BACKGROUND AND OVERVIEW

On March 14, 2014, the Commission issued D.14-03-021, which established the MHP Pilot Program, a statewide, voluntary three-year (2015 through 2017) "living pilot" program with the goal of converting approximately 10 percent of the total MHP spaces within each of the Commission-regulated gas and electric utilities' service territories. Upon conversion, MHP residents receive natural gas and/or electric service directly from their respective utility service providers. On September 28, 2017, the Commission approved Resolution E-4878, authorizing, among others, Southwest Gas' Advice Letter No. 1035, which requested continuation of the MHP Pilot Program beyond the initial three-year pilot period.

In April 2018, the Commission opened Rulemaking (R.) 18-04-018 to evaluate the MHP Pilot Program and adopt programmatic modifications. Utilities were directed to submit supplemental MHP Pilot Program data.³ Commission Staff provided guidance to the utilities for the submission of the supplemental program data utilizing the annual report template, which included:

1. The total costs for MHP Pilot Program conversions were to be reported in the year that final costs were recorded.
2. MHP Pilot Program conversions were to be included in the reporting year, if, as of September 30, the estimated trailing costs did not exceed 5% of total conversion costs for that MHP.
3. The number of MHP spaces converted were to be reported in the same year that MHP Pilot Program conversion costs are entered, so that the aggregate costs and aggregate spaces correspond.

Additionally, Commission Staff directed utilities to provide an updated list of all conversions completed, or that are in progress, including MHP location (city/county), MHP space count, and the overlapping utility.

¹ Per electronic mail from SED Staff dated December 21, 2018, respondent utilities were directed to submit a 2018 Annual Status Report on their Mobilehome Park Utility Upgrade Programs by February 1, 2019. In this same email, SED Staff provided the annual report template to be used.

² The program was formerly referred to as the Mobilehome Park Utility Upgrade Pilot Program (MHP Pilot Program) during the three-year pilot program adopted in D.14-03-021.

³ Assigned Commissioner's Scoping Memo and Ruling issued in R.18-04-018 on August 31, 2018.

On April 16, 2020, the Commission approved D.20-04-004, establishing a permanent 10-year MHP Program beginning in 2021, primarily relying on the MHP Pilot Program requirements adopted in D.14-03-021, as well as imposing additional requirements and adjustments, including:

- The MHP Program is now open to MHPs with and without submeters.⁴
- MHP common use buildings are eligible for conversion under the MHP Program, at SED's discretion, which will be served under the utility's commercial rate schedules.⁵ MHP Owner/Operators are still responsible for "Beyond the Meter" expenses for common use buildings.⁶
- Prioritization will continue to be based on gas safety first, then reliability, dual conversions and capacity improvements consistent with D.14-03-021. The following additional prioritization criteria are to be included in the ongoing MHP Program:
 - Whether the MHP has reported any gas incidents;
 - Whether the MHP has experienced damage of its gas/electric infrastructure due to wildfire, especially if the MHP is already scheduled to be converted; and,
 - A Disadvantaged Community criterion will be included that will serve as a tiebreaker if two MHPs have the same safety score.⁷
- Each gas and electric utility shall continue annual reporting on the MHP Program, beginning on February 1, 2021, and continuing thereafter until the end of the program using the Revised Annual Report Template included as Appendix B to D.20-04-004.⁸

D.20-04-004 authorized Southwest Gas to convert 450 eligible MHP spaces a year, at an annual "soft target" cost of \$5.2 million.

III. REPORT

Southwest Gas has prepared and submits its tenth Annual Report using the Annual Report Template adopted in D.20-04-004 and guidance criteria for the period from January 1, 2025 through December 31, 2025 (Reporting Period).

MHP Program Conversion Rate and Status

Table 1 below depicts the MHP conversions completed within the Reporting Period under the MHP Program.

Table 1

MHP	City	County	Overlapping Electric Utility	# of Spaces	# Spaces Converted	
1	Kings Beach	Placer	Liberty	43	31	
2	South Lake Tahoe	El Dorado		24	21	
3	South Lake Tahoe			8	8	
4	South Lake Tahoe	El Dorado	Liberty	61	61	

⁴ *Id.*, at pg. 40.

⁵ *Id.*, at pg. 41.

⁶ *Id.*, at pgs.40-41.

⁷ *Id.*, at pgs. 49-50.

⁸ *Id.*, OP 10, at pg. 174.

Table 1 (Continued)

MHP	City	County	Overlapping Electric Utility	# of Spaces	# Spaces Converted

34	Hinkley			8	5
35	Barstow			31	30
36	Barstow			94	92
37	South Lake Tahoe	El Dorado	Liberty	17	1
			Total Spaces	2,952	2,790

Table 2 below depicts the remaining MHPs that were prioritized for 2025. These MHPs are currently in progress and are expected to be fully converted in first quarter of 2026.

Table 2				
MHP	City	County	Overlapping Electric Utility	# of Spaces
1	Yermo			84
2	Victorville	San Bernardino	SCE	35
3	Daggett	San Bernardino	SCE	29
<i>Total Spaces</i>				148

Southwest Gas, in consultation with and approved by SED, prioritized 4 MHP for conversion in calendar year 2026. These MHPs are listed in Table 3 below.

Table 3				
MHP	City	County	Overlapping Electric Utility	# of Spaces
1	Apple Valley			78
2	Hesperia	San Bernardino	SCE	75
3	Victorville			286
4	South Lake Tahoe	El Dorado	Liberty	78
<i>Total Spaces</i>				517

MHP Program Cost Accounting

Southwest Gas completed one additional MHP conversion through 2025, MHP 37 in Table 1 above. The supplemental program and cost data is provided as Attachment A to this Annual Report.

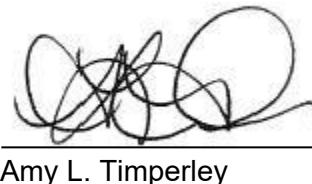

Conclusion

Southwest Gas appreciates the opportunity to provide its tenth Annual Report and looks forward to the continuation of the MHP Program.

VERIFICATION

I, Amy L. Timperley, being first duly sworn, deposes and says: I am the Senior Vice President/Chief Regulatory, Public Affairs & Gas Resources Officer of Southwest Gas Corporation, and I am authorized to make this verification on its behalf. I have read the foregoing Mobilehome Park Utility Conversion Program Tenth Annual Report and I believe the statements contained herein to be true, based upon either my own personal knowledge or upon information and belief. I declare under penalty of perjury that the foregoing is true and correct.

DATED this 2nd day of February 2026.

Amy L. Timperley
Senior Vice President/Chief Regulatory, Public
Affairs & Gas Resources Officer

Notes:

- [a] Estimated on pre-conversion and post-conversion records.
- [b] Average Rate w/o MMBA recovery - Core represents the simple average of Southwest Gas' GS-40/GN-40/ and SLT-40 First 100 therm rates effective November 1, 2018, January 1, 2021, January 1, 2022, January 1, 2023, January 1, 2024, and January 1, 2025. Southwest Gas does not forecast its rates for future periods, therefore the January 1, 2025 effective rate is held constant through the end of the projection period.
- [c] Southwest Gas initial recovery rate for MMHP replacement activity was effective in September 2019.
- [d] Rate Change - Core represents the calculated rate to recover the calculated revenue requirement beginning for 2021. The 2020 revenue requirement is included in the Company's 2021 Test Year rate case base revenues.
- [e] % Rate Change - Core = Rate Change - Core / Average Rate w/o MMBA recovery - Core
- [f] Average Rate w/o MMBA recovery - Non-Core represents the simple average of Southwest Gas' GS-70/GN-70/ and SLT-70 rates effective November 1, 2018, January 1, 2021, January 2022, January 1, 2023, January 1, 2024, and January 1, 2025. Southwest Gas does not forecast its rates for future periods, therefore the January 1, 2025 effective rate is held constant through the end of the projection period.
- [g] Southwest Gas initial recovery rate for MMHP replacement activity was effective in September 2019.
- [h] Rate Change - Non-Core represents the calculated rate to recover the calculated revenue requirement beginning in 2021. The 2020 revenue requirement is included in the Company's 2021 Test Year rate case base revenues.
- [i] % Rate Change - Non-Core = Rate Change - Non-Core / Average Rate w/o MMBA recovery - Non-Core
- [j] Present Value calculation assumes 10% discount rate for the stream of revenue requirement amounts indicated.
- [k] Replacement activity through September 30, 2018, is included for recovery in the Company's 2021 Test Year rate case.
