

APRIL 2026

NEWS TO USE

APRIL IS NATIONAL SAFE DIGGING MONTH

Keep your community safe and connected by calling **811** at least two working days before starting any digging project. A quick call ensures underground utility-owned lines are located and marked at no cost before you dig.

Whether you're planting trees, installing a fence, or starting a landscaping project, contacting 811 helps prevent service interruptions, property damage, and potential injuries. For more safety tips, visit swgas.com/safety.

SMALL CHANGES, SPRING ENERGY SAVINGS

As temperatures warm up this spring, a few simple weatherization steps can help reduce energy use and manage your natural gas costs.

- Keep blinds/curtains closed to block heat
- Grill outdoors to keep your home cooler
- Set water heater to 120°F
- Wash in cold water and run full loads

Find more seasonal energy-saving tips visit swgas.com/energy-saving-tips.

RECOGNIZE AND RESPOND

Signs of a natural gas leak may include:

SMELL

A distinct sulfur-like odor, similar to rotten eggs, even if it's faint or momentary.

HEAR

A hissing or roaring coming from the ground, above-ground pipeline, or a natural gas appliance.

SEE

Dirt or water blowing into the air, unexplained dead or dying plants or grass, or standing water continuously bubbling.

If you suspect a natural gas leak, leave the area immediately, and call **911** and **Southwest Gas** at **877-860-6020**.

SPRING CLEAN YOUR ACCOUNT SETTINGS

Spring is a great time to tidy up more than just your home. Log in to MyAccount or the mobile app to review and update your phone, text, and email preferences so you can receive important account notifications. While you're there, consider signing up for Paperless Billing to reduce paper clutter and conveniently manage your monthly bill online.

STAY CONNECTED
