NEWS TO USE

SOUTHWEST GAS

WHY WE MAY NEED ACCESS TO THE METER

Southwest Gas employees and authorized contractors may need access to the natural gas meter on your property to perform important safety and service work, including meter inspections, leak surveys, maintenance, repairs, and service restoration. Access to the meter helps us provide safe and reliable natural gas service.

If someone requests access to the meter, ask to see their ID badge. If you're unsure whether they represent Southwest Gas, call **877-860-6020** to verify their identity.

PLANNING A HOME ENERGY PROJECT?

Southwest Gas can help you find licensed contractors and appliance dealers in your area. Use our Contractor Referral Program to connect with qualified professionals and compare options for your next appliance repair, replacement, or upgrade.

Learn more at swgas.com/contractor-referrals.

RECOGNIZE AND RESPOND

Signs of a natural gas leak may include:

SMELL

A distinct sulfur-like odor, similar to rotten eggs, even if it's faint or momentary.

HEAR

A hissing or roaring coming from the ground, above-ground pipeline, or a natural gas appliance.

SEE

Dirt or water blowing into the air, unexplained dead or dying plants or grass, or standing water continuously bubbling.

If you suspect a natural gas leak, leave the area immediately, and call **911** and **Southwest Gas** at **877-860-6020**.

MAKE THE MOST OF SUMMER & KEEP ENERGY USE IN CHECK

In the summer, natural gas makes outdoor living easy and efficient. Preheat your natural gas grill for just 5-10 minutes and cook with the lid closed to save energy. On hot days, lower your spa's temperature - small adjustments can lead to big savings. Regular maintenance keeps your natural gas appliances running safely and reliably all summer long.
