

Choose a **Smarter Greener Better** Rebate Program

That is Right For You!

We support our community builders and multi-family properties by offering rebate programs that promote energy-efficiency. Whether you are building ENERGY STAR® certified homes, utilizing high-efficiency natural gas appliances in your development or taking advantage of solar water heating, we have different programs to suit your needs.

What Program Do I Choose?

**ENERGY STAR
Certified Home Rebates**

or—

Natural Gas Equipment Rebates
for high-efficiency natural gas appliances

and—

Solar Water Heating Rebates
on the installation of solar water heating systems with natural gas back-up

See inside for more details on individual programs.

SOUTHWEST GAS

smarter > greener > better

2015 Nevada Smarter Greener Better®

Rebates for Builders and Multi-Family Properties

SOUTHWEST GAS

smarter > greener > better

Choose a *Smarter Greener Better*® Program That is Right For You!

Build homes that meet your customers' energy efficiency needs and offer what over 70% of homeowners want: a home with natural gas features.+

Builders and multi-family properties are eligible for the following **ENERGY STAR® Certified Home Rebates** or **Natural Gas Equipment Rebates**. Home certification rebates and equipment rebates cannot be used for the same address.

Solar Water Heating

Rebates (for all eligible properties)

Southwest Gas is proud to offer rebate incentives to builders who install solar water heating systems with a natural gas back-up. Solar water heating is clean and efficient and helps customers save energy and reduce greenhouse gas emissions. Can be used in conjunction with other rebate programs.

Solar Water Heating
Up to **30%** of system cost or up to **\$7,500**
OG-300 system certification or OG-100 collector certification with stamp or seal of a professional engineer.

Rebate Application Details

Please review the rebate application for additional requirements and full terms and conditions.

+2011 Customer Preference Study conducted by Woodland, O'Brien & Scott

Rebate Application Details

Please review the rebate application for additional requirements and full terms and conditions.

Rebates are available for homes certified or for equipment purchased January 1, 2015 through December 31, 2015, or until program funds are no longer available, whichever comes first. Due to limited funding, please submit your rebate application as soon as possible after home certification or equipment purchase and installation. Homes must be certified and equipment must be installed before submitting a rebate application.
