

REBATE APPLICATION DETAILS

Please review the rebate application for additional requirements and full terms and conditions.

Rebates are available for purchases made January 1, 2022, through December 31, 2022, or until program funds are no longer available, whichever comes first. Due to limited funding, please submit your application as soon as possible, after purchase and installation. Equipment must be installed before submitting a rebate application. Rebate applications will be processed on a first-come, first-served basis and must be postmarked or submitted online by January 31, 2023,* to be eligible for the rebate.

*Program participation dates are subject to funding availability and may change without notice. Program and submission deadline dates will be updated on swgas.com/azbuscustomrebate.

Arizona Commercial Custom REBATE PROGRAM

Take advantage of our rebates to save money, energy and the environment!

SOUTHWEST GAS
smarter > greener > better

GET MORE VALUE...

...with our Arizona *Smarter Greener Better*® Custom Rebate Program. This program offers rebates on qualifying energy saving equipment and/or upgrades not covered by our standard/prescriptive rebate programs. The more energy your project saves, the more your business can earn in rebate dollars — up to **\$1 per therm of gas saved, capped at 50%** of the incremental cost. All custom projects require **preapproval** before equipment purchase and installation.

Why Participate?

Our Custom Rebate Program can help lower your operating costs by providing rebates on a wide range of equipment and system improvements. Get more money back by choosing energy-efficient investments that exceed standard options.

- Increase business productivity and profitability by investing in equipment that can boost your output without increasing your energy costs.
- Decrease maintenance costs and downtime with newer and more efficient equipment.
- Lower your energy use, increase efficiency and enjoy lasting benefits that translate directly to your bottom line.
- Shorten payback terms with our Custom Rebates. The more efficient your equipment, the more you may be eligible for in rebates.

If your answer is “yes” to any of the following questions our **Custom Rebate Program** may be right for you!

- ✓ Do you have rising operating and maintenance costs?
- ✓ Are you planning to replace existing equipment or add new equipment?
- ✓ Are you looking to change the way your business operates? Will this impact processes or equipment needs?
- ✓ Do you plan to make energy efficient improvements not covered by our standard/prescriptive Rebate Programs?

WHAT TYPES OF PROJECTS QUALIFY FOR A CUSTOM REBATE?

If you're considering participating, your project **MUST**:

1. Produce verifiable natural gas usage reduction.
2. Be installed in either existing or new construction applications, where the system's efficiency exceeds applicable codes or standard industry practice.
3. Have a minimum useful life of 7 years.
4. Exceed minimum cost-effectiveness.

ADDITIONAL INFORMATION TO HELP YOU GET STARTED

- We require preapproval of your project before you purchase and install equipment.
- We'll provide written notice if your project qualifies for a *Smarter Greener Better*® custom rebate and the amount you will receive.
- Rebates are calculated on a case-by-case basis with rebates based on the amount of energy conserved.
- After installation, and once new processes have been implemented, submit your installation notice along with a commissioning plan and we will verify the completion of your project and send your rebate check.
