Southwest Gas Corporation

Effective November 1, 2010, natural gas rates for Southwest's Southern Nevada customers were decreased by approximately \$35.9 million, or 8.30 percent, as a result of changes in the Deferred Energy Accounting Adjustment (DEAA) and Variable Interest Expense Adjustment (VIEA).

The commodity charges listed for each rate schedule include the revised DEAA and VIEA rates. Customer bills which contain usage before and after November 1 are subject to proration as a result of the rate change.

For additional information, please call your local office at the number listed on your bill.

Transportation Service

For transportation customers, the PUCN decreased the low pressure distribution shrinkage rate from \$.00509 per therm to \$.00216 per therm, the high pressure shrinkage rate from \$.00020 to \$.00008 per therm, and revised the imbalance commodity charge and the imbalance reservation charge used to calculate payment for excess balances to \$.56187

per therm and to \$.07562 per therm, respectively.
