

Your home can be Greener Than You Think...

We can help make your home more energy efficient. Whether you own or rent your home, the winter cold and summer heat can rob a home of its comfort, and increase energy costs. Weatherizing a home can make a big difference by reducing energy bills.

The **Energy Savings Assistance Program** can help our income-qualified customers reduce their overall energy use and increase the energy efficiency of their home, at no cost to them.

Eligible homes may receive energy-saving measures such as ceiling and floor insulation, door weather-stripping, energy-efficient showerheads, storm windows, and more.

Review the chart on the reverse for the **Energy Savings Assistance Program** income qualifications.

For more information, please call us at 1-877-860-6020 or visit www.swgas.com/efficiency/ca to learn more.
