## **Southwest Gas Corporation**

Effective January 1, 2013 natural gas rates for Southwest's Northern Nevada customers were increased by approximately \$1.5 million, or 1.9 percent, as a result of changes in the Uncollectible Gas Cost Expense and the Quarterly Gas Cost, and the Renewable Energy Program Rate.

Monthly bills that reflect usage both prior to and after the effective date of the rate change will be billed the old rates for the usage prior to the effective date and the new rates for the usage after the effective date.

For additional information, please call your local office at the number listed on your bill.

### **Transportation Service**

The distribution shrinkage rate was changed to \$(.00184) per therm. The imbalance commodity charge and the imbalance reservation charge, used to calculate payment for excess balances, were changed to \$.39157 per therm and to \$.27777 per therm, respectively.
