- **Street and Outdoor Lighting Gas Service**
- **Transportation Service**

Southwest Gas Corporation

Effective January 1, 2013, natural gas rates for Southwest's Southern Nevada customers were decreased by approximately \$16.8 million, or 5.6 percent, as a result of changes in the Base Tariff General Rate, the Uncollectible Gas Cost Expense, the Quarterly Gas Cost, and the Renewable Energy Program Rate.

Monthly bills that reflect usage both prior to and after the effective date of the rate change will be billed the old rates for the usage prior to the effective date and the new rates for the usage after the effective date.

For additional information, please call your local office at the number listed on your bill.

Transportation Service

The low pressure and high pressure distribution shrinkage rates were changed to \$(.00179) per therm and \$(.00008) per therm, respectively. The imbalance commodity charge and the imbalance reservation charge, used to calculate payment for excess balances, were charged to \$.40958 per therm and to \$.08145 per therm, respectively.
