

Natural Gas – the efficient energy choice.

While natural gas can be used to produce electricity for your appliances, a large percentage of the energy used for production is lost during the process.

With natural gas production, 92% of what originates from the gas well is delivered and ready to fuel your natural gas appliances.

ELECTRIC

{ 32%
efficient

About 68% lost in generation and delivery

NATURAL GAS

{ 92%
efficient

About 8% lost in extraction and delivery
