

Your home can be Greener Than You Think!

The **Energy Savings Assistance Program** can help our income-qualified customers reduce their overall energy use and increase the energy efficiency of their home.

Whether you own or rent your home, the winter cold and summer heat can rob a home of its comfort, and increase energy costs. Weatherizing a home can make a big difference by reducing energy bills.

Eligible homes may receive energy-saving measures such as ceiling and floor insulation, door weather-stripping, energy-efficient showerheads, storm windows, and more, at no cost.

Review the chart on the back for the **Energy Savings Assistance Program** income qualifications.
