Schedule No. G-20

MASTER-METERED MOBILE HOME PARK GAS SERVICE

APPLICABILITY

Applicable to gas service for cooking, water heating, space heating and other usages supplied to a master-metered mobile home park and its tenants within the park through one meter on a single premise. This schedule is closed to new installations.

TERRITORY

Throughout the certificated area served by the Utility in the communities as set forth on A.C.C. Sheet No. 8 of this Arizona Gas Tariff.

RATES

The basic service charge and commodity charge are set forth in the currently effective Statement of Rates of this Arizona Gas Tariff and are incorporated herein by reference.

LOW INCOME DISCOUNT

If an individual tenant of a mobile home park served under this schedule meets the low income criteria specified on the Utility's "Application and Declaration of Eligibility for Low Income Ratepayer Assistance (Arizona)," the mobile home park customer shall be eligible for the Low Income Ratepayer Assistance (LIRA) discount for that tenant's account. The LIRA program entitles customers served under this schedule to a reduction in the commodity rate under Schedule No. G-20 equivalent to the differential in the commodity rate under Schedule Nos. G-5 and G-10. Such rate reduction will be applicable for the first 150 therms consumed by each eligible tenant per month during the winter season (November through April).

Customers taking service under this schedule will receive the LIRA discount on their metered volumes in proportion to the percentage of mobile home park tenants that qualify under the LIRA program criteria. Customers served under this schedule must have an approved application form on file with the Utility for each tenant eligible for the LIRA discount. Recertification will be required prior to November 1 every two years and the customer must notify the Utility within 30 days of any changes in the eligibility status of the customer's tenants. It is the responsibility of master-metered customers to pass through a proportionate share of the low income discount to each eligible low income tenant. If the Utility ascertains that a master-metered customer has failed to appropriately pass through the LIRA discount to eligible tenants, an adjusted bill may be rendered to the customer.

RULE NO. 9

BILLING AND COLLECTION

*(Continued)*

G. METHODS OF PAYMENT

1. Payments are required to be made in cash, by check, money order, certified check or any other means mutually agreeable to the Utility and the customer.
2. All payments shall be presented by mail, telephone, in person, or electronically to the office of the Utility or to the Utility's duly-authorized representative.

H. APPLICABLE TARIFFS, PREPAYMENT, FAILURE TO RECEIVE, COMMENCEMENT DATE AND TAXES

1. Each customer shall be billed under the applicable tariff indicated in the customer's application for service.
2. The Utility shall make provisions for advance payment of the Utility's services.
3. Failure to receive bills or notices which have been properly placed in the United States mail or sent by means of electronic transfer shall not prevent such bills from becoming delinquent nor relieve the customer of his obligation therein.
4. Charges for services commence when the service is installed and connection made, whether used or not.

I. METER ERROR CORRECTIONS

1. If any meter after testing is found to be more than 3 percent in error, either fast or slow, proper correction shall be made of previous readings and adjusted bills shall be rendered according to the following terms:
  - a. The period of three months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding three months since the meter shall have been shown to be in error by such test.
  - b. If the date of the cause for the error can be definitely determined, the undercharge or overcharge shall be computed back to, but not beyond the date established and will not exceed 12 months. No part of the minimum charge will be refunded.
