This schedule is closed for new Master Meter Mobile Home Park Gas Service.

RATES

The demand charge, commodity charge and basic service charge are set forth in the currently effective Statement of Rates, of this Nevada Gas Tariff, and are incorporated herein by reference.

For transportation customers electing to switch to sales service under this schedule, the Base Tariff Energy Rate (BTER) of the customer's sales rate will be determined in accordance with Special Condition No. 3 of this schedule.

The monthly demand charge shall be the product of the demand charge rate multiplied by the customer's billing determinant. The billing determinant shall be equal to the customer's highest monthly throughput during the most recent twelve (12) month period, ending the month prior to the current billing period. For new customers, the initial billing determinant shall be calculated by multiplying the customer's estimated average daily use by the number of days in the billing period.

The minimum charge per month is the sum of the basic service charge and the demand charge.
