

# Southern Nevada Tropicana Operations Relocate

Since 1986, the Tropicana Operations Center has been serving the growing natural gas needs of our customers in southern Nevada. However, to continue to meet the company's business needs and those of the community we serve, a relocation of the operations facility has become necessary.

The new facilities will enable Southwest Gas and its employees to continue to provide the level of service our customers have come to expect from us, as well as enable the company to manage future expansion in the metropolitan area.

Expected growth in the Las Vegas valley is projected to take place north and south along US Interstate 15 and north along US Interstate 95. To strategically position division operations for the projected growth, two operation sites have been selected to support our business needs and those of our expanding community.

"Throughout the years, employees have done an outstanding job of managing the fast-paced growth and expansion of the Las Vegas area, and they are to be commended," stated Anita Romero, Southern Nevada Division vice president. "This

growth has brought tremendous change to the community, and as a company we must change as well."

Plans are underway for the relocation to take place as follows: Southern Nevada Division and several corporate staff departments will move to either the north location, near the Las Vegas Speedway, or the south location in Henderson, near the Henderson Executive Airport. The north location will be the division headquarters and the south center will include a complement of division operations and corporate functions.

Also as part of the transition, Customer Service/Meter Reading employees in the Cheyenne and Henderson offices will relocate to the north and south locations. The Cheyenne Public Office will remain open, and a new Public Office will open in the south part of town to replace the Tropicana Customer Office.

Updates on the relocation will be provided in *GasWorks* and other employee communications. When the final facility floor plans are approved, they will be displayed for those who are affected by the move.

North Facility (NE corner of Centennial Parkway and Shatz Street)

## North Location – near the Las Vegas Speedway

- Division Management/ Administration
- Consumer Affairs
- Division Human Resources
- Division Risk Management/Safety
- Auto Shop
