

SAFETY RULES!

811 • May 2010

Smart digging means calling 811 first! Whether you are a homeowner or a professional excavator, one call to 811 gets underground utility lines marked for FREE.

By calling 811, you reduce the risk of unintentionally hitting underground utility lines while working on digging projects. Every digging job requires a call - even small projects like planting trees or shrubs.

Don't make the mistake of not calling before you dig. This oversight can be life-threatening or costly. If you hit an underground utility line while digging, you can harm yourself or those around you, disrupt service to an entire neighborhood and potentially be responsible for fines and repair costs.

*Building a deck? Planting a tree?
Installing a mailbox?*

**811 IS THE NUMBER
YOU SHOULD CALL
BEFORE YOU BEGIN ANY
DIGGING PROJECT.**

**Know what's below.
Call before you dig.**
