

# The more you know... the safer you are.

# NEWS TO USE

June 2014

We believe informed customers are safe customers. So to keep you up-to-date on a variety of natural gas safety-related topics, we've renovated our website. Check out the new and improved site at [www.swgas.com/safety](http://www.swgas.com/safety).

#### Once there you'll learn about:

- Signs of a natural gas leak
- How to handle a suspected leak
- Calling 811 before you dig
- Appliance safety
- Pipeline locations & much more

Plus, for your convenience, helpful materials can now be downloaded from the [Brochures, websites & more](#) section, including our comprehensive Natural Gas Safety booklet.

Check back often as we'll continue to enhance and expand the site to keep you informed and safe. And be sure to share this important natural gas safety information with everyone in your household.

Remember, if you ever suspect a natural gas leak, leave the area immediately and from a safe place call 911 and Southwest Gas at 1-877-860-6020, day or night.
