### SIZZLIN' SAFETY TIPS

June and July are peak grilling months, so serve up your best by prepping with safety.

- Always start with a clean grill.
- Check hoses for holes, cracks or brittleness.
- Follow all manufacturer instructions for proper lighting and maintenance.

Need your natural gas grill connected?

Visit [swgas.com/referrals](http://swgas.com/referrals) to find a contractor in your area participating in the Appliance Connection Program or call our Energy Specialists at **800-654-2765**.

# DID YOU KNOW ?

CO<sub>2</sub> emissions from homes using natural gas for space/water heating, cooking and clothes drying are about 22% lower than all-electric homes.\*

### HYDROGEN (H<sub>2</sub>) BLENDING

Studies demonstrate that, in specific blends, hydrogen can power existing natural gas appliances, co-generate electricity and much more.

To better understand how Southwest Gas can leverage this abundant, low-emissions resource, we're currently testing natural gas blends containing up to 20% H<sub>2</sub>.

We look forward to demonstrating how such blends can help shape our nation's low-carbon, sustainable energy future.

Follow our H<sub>2</sub> innovations at [swgas.com/hydrogen](http://swgas.com/hydrogen).
