# BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Southwest Gas Corporation (Southwest Gas or Company) herewith submits Advice Letter No. 1081. There are no tariff sheets associated with this submission.

# <u>Purpose</u>

The purpose of this Advice Letter is to request a one year extension of the conditional approval granted to Southwest Gas for its revisions to Preliminary Statement 17 – Gas Cost Incentive Mechanism (GCIM).

# Background

On March 23, 2016, Southwest Gas filed Advice Letter No. 1006, requesting approval to modify its Preliminary Statement 17 concerning its GCIM. Specifically, the GCIM modifications allow for the appropriate evaluation of Southwest Gas' natural gas purchases (i.e., daily purchases v. daily indices, monthly purchases v. monthly indices) and provide for the flexibility to address and account for events that influence the Company's natural gas procurement that are outside Company' control. On October 28, 2016, the Energy Division approved Southwest Gas' GCIM modifications for the GCIM reporting period November 1, 2016 through October 31, 2017. Pursuant to the Energy Division, "If [Southwest Gas] chooses to extend the modifications beyond October 31, 2017, [Southwest Gas] must request an extension for these modifications either through another [A]dvice [L]etter filing or include it in another [Commission] proceeding, such as its upcoming GRC filing scheduled for September 2017."

The Company's need to modify its GCIM was driven by: 1) Southern California Gas Company's (SoCalGas) implementation of tariff changes permitting high and low Operational Flow Orders (OFOs) and Emergency Flow Orders (EFOs); 2) the concerns about the availability of SoCalGas' Aliso Canyon underground storage facility; and 3) SoCalGas' implementation of daily balancing on its system. These events impact Southwest Gas' natural gas procurement practices, resulting in the potential need for Southwest Gas to make daily natural gas purchases in the Company's Southern California service territory. The conditions surrounding the Company's request to modify its GCIM remain.

Therefore, Southwest Gas requests a one-year extension of its approved GCIM tariff modifications for the upcoming GCIM reporting period November 1, 2018 through October 31, 2019.

Southwest Gas does not propose any additional modifications to its tariff beyond those already approved by the Energy Division in Advice Letter No. 1006.

This Advice Letter will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

### **Effective Date**

Southwest Gas believes this Advice Letter is subject to Energy Division disposition and should be classified as Tier 2, effective after Energy Division approval pursuant to General Order (GO) 96-B. Southwest Gas respectfully requests that this Advice Letter be made effective on October 31, 2018, consistent with the start of Company's next GCIM reporting period.

### **Protest**

Anyone may protest this Advice Letter to the California Public Utilities Commission. The protest must state the grounds upon which it is based with specificity. The protest must be sent no later than 20 days after the date of this advice submission, and shall be sent by letter via U.S. Mail, facsimile, or electronically.
