Advice Letter No. 1241-G

(U 905 G)

Public Utilities Commission of the State of California

Subject: 2023 Post-Test Year Margin Adjustment to include the North Lake Tahoe Lateral Replacement Project, Authorized in Decision 21-03-052.

Southwest Gas Corporation (Southwest Gas or Company) hereby submits for approval to the California Public Utilities Commission (Commission) revisions to its California Gas Tariff. The tariff sheets being modified with this submission are listed on Attachment A.

Purpose

The purpose of this submission is to include an adjustment to Southwest Gas' 2023 Post Test-Year Margin (PTYM) to recover costs associated with the Company's North Lake Tahoe Lateral Replacement Project (NLTL Project) authorized in Decision (D.) 21-03-052, which approved Southwest Gas' Test Year 2021 General Rate Case (Application (A.) 19-08-015). This adjustment is for rates applicable to Southwest Gas' Northern California rate jurisdiction only.

Background

On August 30, 2019, Southwest Gas filed A.19-08-015, requesting authority to increase rates and charges for natural gas service in California, effective January 1, 2021. On August 3, 2020, Southwest Gas, the Public Advocates Office of the Commission and the City of Victorville filed a Joint Motion for Adoption of Settlement Agreement resolving all outstanding issues. On March 24, 2021, the Commission issued D.21-03-052, approving the Joint Motion.

Per the Settlement Agreement, once each phase of the NLTL Project is placed into service and operational, Southwest Gas will calculate the associated revenue requirement for each phase and include that revenue requirement in rates as a PTYM adjustment through the Advice Letter process.

Southwest Gas Adjustment to Its 2023 PTYM for the NLTL Project

In accordance with D.21-03-052, Southwest Gas submitted Advice Letter No. 1235 on November 28, 2022, which sets forth its 2023 PTYM adjustments for its three rate jurisdictions, including Northern California. Through this instant Advice Letter, Southwest

Advice Letter No. 1241-G

December 19, 2022

Gas seeks to increase its 2023 PTYM adjustment of \$2,826 applicable to its Northern California rate jurisdiction to include \$1,313,261 for the revenue requirement associated with NLTL Project. This results in an overall 2023 PTYM adjustment of \$1,316,087 for Northern California. Southwest Gas proposes to include the NLTL Project revenue requirement in rates effective February 1, 2023. The calculation of the 2023 PTYM revenue requirement is included in the schedule provided in Attachment B.

Residential Gas Rate and Bill Impact

On May 8, 2020, the Energy Division issued a standing data request to all energy utilities requiring detailed rate and bill impacts (utilizing the provided template) for any Advice Letter that requests the implementation of a rate change (i.e., margin adjustment, annual balancing account update, etc.). The bill impact is provided in Attachment C.

Effective Date

Southwest Gas believes this Advice Letter is subject to Energy Division disposition and should be classified as Tier 2 (Effective after Energy Division Disposition) pursuant to General Order (GO) 96-B. Southwest Gas respectfully requests this Advice Letter be approved January 18, 2023, which is thirty (30) days from the date submitted, with an effective date of February 1, 2023.

Protest

Anyone may protest this Advice Letter to the Commission's Energy Division. The protest must state the grounds upon which it is based with specificity and must be sent no later than 20 days after the date of this Advice Letter submission. Protests are to be submitted electronically to the Commission's Energy Division at:

Email: edtariffunit@cpuc.ca.gov

In addition, protests and all other correspondence regarding this Advice Letter should be sent electronically to:
